

Product Data Sheet

Sling with Protective Sleeve

S0074 & S0075

Our standard circular slings are available fitted with a polyester sleeve to protect against light abrasion, soiling, etc.

The sling is made as normal, then the tubular sleeving is tacked in place at one end to prevent accidental removal, while still allowing inspection.

Sling Lengths: The advertised length of protected slings is the working length (measured end to end).

Specs:

- Rated load of 35kN for 25mm slings
- High grade polyester webbing
- Polyester tubular sleeving
- Individual serial number
- Size variations available on request

Conforms to:

- EN354:2010, EN566:2017, EN795-B:2012 & PD CEN/TS 16415:2013 Type B - 2 person load
