

# Product Data Sheet

## Ground Spider

RS007

Used as a temporary steep ground/steep earth anchor, the updated version of the Ground Spider is even more lightweight and easily transportable. Its folding spikes allow it to pack away into the supplied pouch, with a size of only 40cm x 7cm.

Whilst the linking sling and Maillon conform to their own relevant standards, there is no standard for temporary ground anchors. The Ground Spider has, however, been successfully tested with a 15kN static load, which is the strength required for most industrial anchors (Please note that this is a lab test only).

The type of ground has a significant impact on the effectiveness of the Ground Spider and as such, we strongly recommend training in their installation and use.

### Specs:

- Spikes: Anodised aluminium
- Linking sling: High grade polyester (EN354, EN566, EN795)
- Maillon: Steel (EN362, EN12275)
- Spike length: 15cm
- Size when packed in bag: 40cm x 7cm
- Weight: 875g – inc connections
