

Product Data Sheet

8mm Admiral Eye to Eye Lanyard

L0044-70, L0044-80, L0044-90 & L0044-120

Our 8mm Admiral Cord Eye to Eye Lanyard is ideal as a hitch cord, lightweight sling, friction hitch, or for multiple other applications within arboriculture, rope rescue, mountain rescue, water rescue, and other sectors.

Its Dyneema core, combined with a durable polyester sheath, provides an exceptionally high strength-to-weight ratio while remaining lightweight, flexible and extremely nice to handle. The construction offers excellent abrasion resistance and low water absorption, making it well suited to demanding operational and outdoor environments.

Features:

- Suitable for multiple applications
- High strength to weight ratio
- Optional EN362 connector fitting available on request
- Must not be used for fall arrest without the addition of a suitable force limiting element

Specs:

- 8mm Diameter Admiral Cord
- Minimum Strength: 22kN
- Material: Dyneema, Polyester
- Length variations available on request

Conforms to:

- EN566:2017, EN795-B:2012 (1 person)
