

Product Data Sheet

8mm Ocean Polyester Cord

RR036

8mm Ocean Polyester Cord from Teufelberger is a high-performance hitch cord developed specifically for demanding friction hitch applications within arboriculture and rope access environments.

Constructed with a polyester core and a polyester/Aramid sheath, Ocean Polyester provides an excellent balance of grip, heat resistance, durability and handling. Its proven construction has made it a popular choice amongst arborists and rope professionals who require consistent performance and long service life from their hitch cords. Suitable for friction hitches and technical rope systems.
