

Product Data Sheet

8mm Resc Tech Cord

RR032

Resc Tech from Teufelberger is a highly durable and lightweight 8mm technical cord developed for rescue, tactical and specialist operations. Combining a floating core with an extremely abrasion and heat-resistant Technora® sheath, it offers outstanding durability in demanding environments.

Its high strength-to-weight ratio, excellent abrasion resistance and low weight make it ideal for anchor systems, rescue rigging, tactical operations and other technical applications where reliability and durability are essential. The robust construction performs particularly well in harsh operational environments where conventional cords may suffer accelerated wear.

Specs:

- Size: 8mm diameter
- Minimum Breaking Strength: 29kN
- Core: UHMWPE/Polypropylene
- Sheath: Technora®/Polyester
- Outer braids: 32
- Weight: 41g per metre
- Colours: Tan/Black/Olive or Tan/Black/Yellow
- Standard length up to 200m – Sold only in multiples of 25m
- Can be fitted with Sewn Eyes
